

Year 11 French Curriculum Map

Overview	<p>In Year 10, students will study 3 units as prescribed by the AQA exam board. They will focus on understanding and expressing descriptions and opinions. Grammatical knowledge will be built upon providing reinforcement from KS3, alongside understanding and application of more complex structures and verb conjugation. Continual skill development will occur through the inclusion of the four key areas of listening, speaking, reading and writing. Students will make links between these areas to develop their understanding of how languages work. A range of skills within these key areas will be developed throughout each unit with repeated practice. Each assessment will focus on one or two particular exam skill elements; usually a productive skill with a receptive skill. This allows students and teachers to see particular areas of strength and areas to work on in terms of knowledge, understanding and skill. By the end of year 11, we hope we will have inspired our students to carry on studying French and we would be delighted to welcome them to our A Level group the following year.</p>
